NET POSITIVE SYMPOSIUM FOR HIGHER EDUCATION

living-future.org/events/net-positive-symposium-higher-education/

DESCRIPTION

Join ILFI and AASHE on June 25 – 26, 2018 at Hampshire College for the Net Positive Symposium for Higher Education—focused on inspiring, educating, and igniting action that creates a Living Future within Higher Education Institutions.

Higher education institutions have long been centers of innovation, research, and leadership, integral in shaping our society and culture. So, what better place than college and university campuses to create the most innovative and forward-thinking communities?

Campuses in Western Massachusetts—Hampshire College, Smith College, and Williams College—are on the forefront of transformation. These institutions, with others in the area, have been early adopters of the Living Building Challenge and the Living Community Challenge. The Net Positive for Higher Education Symposium will highlight these campuses and their holistic, multi-generational approach to sustainability, resiliency, health, innovation, and equity.

Attendees will explore case studies from these campuses to understand the design, development, and implementation of these living laboratories.

This symposium is for campus planners, sustainability directors, faculty/educators, administrators, operations staff, policy professionals, and design and construction professionals.

NEWSLETTER TEXT

Join the International Living Future Institute and the Association for the Advancement of Sustainability in Higher Education at Hampshire College on June 25 – 26 for the Net Positive Symposium for Higher Education. This symposium will focus on inspiring, educating, and igniting action that creates a Living Future within Higher Education Institutions.

Campuses in Western Massachusetts—Hampshire College, Smith College, and Williams College—are on the forefront of transformation, adopting the Living Building Challenge and the Living Community Challenge. ABOUT THE INTERNATIONAL LIVING FUTURE INSTITUTE

International Living Future Institute is an environmental NGO committed to catalyzing the transformation toward communities that are socially just, culturally rich and ecologically restorative. Composed of leading green building experts and thought-leaders, the Institute is premised on the belief that providing a compelling vision for the future is a fundamental requirement for reconciling humanity's relationship with the natural world. <https://living-future.org/>

ABOUT AASHE

THE ASSOCIATION FOR THE ADVANCEMENT OF SUSTAINABILITY IN HIGHER EDUCATION

AASHE empowers higher education faculty, administrators, staff and students to be effective change agents and drivers of sustainability innovation. We work with and for higher education to ensure that our world's future leaders are motivated and equipped to solve sustainability challenges. <http://www.aashe.org/>
